TANNER BRICE HALLENSTEIN

FULL STACK DEVELOPER

SUMMARY

Motivated full stack developer seeking to provide value to a team by leveraging recently gained bootcamp skills and a dedication to continued learning and growth.

PROJECTS

PLAN IT FOR ME (click title for live site)

- A web application for lazy travelers who give a destination and their interests in return for a full itinerary.
- Utilized Ruby on Rails, Javascript, CSS, HTML, Geocoder, and APIs.
- Challenges included using two APIs to get enough data to display our results, and to calculate distances of trip activities for a more efficient itinerary.

ANTEATER

- A simple bug tracking tool to help teams report and track issues.
- My first solo project using Rails, MVC, and mobile-first design. The project is still in development.
- Challenges include working solo, deciding which features are critical for the mobile design, and setting up proper many-to-many relationships in the database.

LOAN ME (click title for live site)

- A project created for lonely people looking to "loan" a professional friend by searching profiles based on various interests.
- Used to review Ruby on Rails, MVC models, Geocoder, CSS, and HTML.
- First time coding a team-based project, including daily stand-up meetings and tracking tasks using a Trello board.

WORK EXPERIENCE

DATA ENTRY SPECIALIST

Mintel Group Ltd. | Aug. 2019 to Apr. 2021

- Practiced python in weekly Development Club meetings.
- Worked remotely for 13 months while hitting daily and weekly targets.
- Created and edited hundreds of database entries each day.
- Planned social events as a co-leader of the department's Social Club.
- Represented the data entry team as one of Mintel's Champions, a group designed to help adapt the company to the new challenges the pandemic posed.

ENGLISH AS A FOREIGN LANGUAGE TEACHER

Vietnam USA Society, Aug. 2018 to Feb. 2019

- Communicated complex instructions and concepts to non-native English speakers.
- Planned daily lessons aimed for long-term, student goals.

MUSEUM TECHNICIAN

Penn State Frost Entomological Museum, Feb. 2017 to May. 2018

- Cataloged over 140,000 specimens into online databases.
